Your Partner in Cloud Compliance

Our certified compliance professionals will:

- > Answer your questions about report sections and findings
- > Provide supporting documentation so you know exactly how the report relates to industry regulations
- > Assist you in answering auditors' questions on report findings
- > Based on your business and industry, interpret and confirm the classifications our scanning systems return
- > Assist in aligning you with industry regulation controls utilizing the ITIL 2011 framework
- > Provide model contract clauses when required

Need extra help? Purchase additional compliance services as you need them and be billed hourly in a clear, predictable way:

- > On-location audit assistance for cloud services
- > Extra consulting hours with our team

Privacy Shield
Framework

Additionally, iland has achieved the Cloud Security Alliance STAR Gold Certification which is a rigorous third-party independent security assessment of cloud service providers based on the requirements of the ISO 27001. This certification validates the active security and risk programs in place at iland that help identify, mitigate and monitor information security risk.
